

## Safety Data Sheet

# Ammonia test solution

Version : V2.0.0.1

Report No. : BWB2055-2016-MSDS-US

Creation Date : 2025/09/16

Revision Date : -

\*Prepared according to American OSHA HCS-2024 (29 CFR 1910.1200)

## 1 Identification

### Product identifier

Product Name	Ammonia test solution
Cat No.	BWB2055-2016
CAS No.	Not applicable
EC No.	Not applicable
Molecular Formula	Not applicable

### Recommended use of the product and restrictions on use

Relevant identified uses	Please consult manufacturer.
Uses advised against	Please consult manufacturer.

### Details of the supplier of the Safety Data Sheet

Name of the company	Weiyel Inc
Address of the company	Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China
Post code	465350
Telephone number	010-58103678
Fax number	010-84840368
E-mail address	info@weiyel.com

### Emergency phone number

Emergency phone number	010-58103678
------------------------	--------------

## 2 Hazard(s) identification

### Hazard classification according to 29 CFR 1910.1200

Acute Toxicity - Oral	Category 4
Skin corrosion/irritation	Category 1C
Serious eye damage/irritation	Category 1

### Label elements

Hazard pictograms	
Signal word	<b>Danger</b>

**Hazard statements**

H302	Harmful if swallowed
H314	Causes severe skin burns and eye damage
H318	Causes serious eye damage

**Precautionary statements**

## ◆ Prevention

P260	Do not breathe gas/mist/vapour/spray.
P264	Wash hands and other parts of the body (if related) thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P280	Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

## ◆ Response

P321	Specific treatment (see related instructions on the label).
P330	Rinse mouth.
P363	Wash contaminated clothing before reuse.
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P301+P330+P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse affected areas with water [or shower].
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

## ◆ Storage

P405	Store locked up.
------	------------------

## ◆ Disposal

P501	Dispose of contents/container in accordance with local/regional/national/international regulations.
------	---

**Other hazards**

	Not applicable.
--	-----------------

**Hazard description**

## ◆ Physical and chemical hazards

	No information available
--	--------------------------

## ◆ Health hazards

Inhaled	Corrosive product can cause irritation of the respiratory tract, with coughing, choking and mucous membrane damage.
Ingestion	Accidental ingestion of the product may be harmful.
Skin Contact	The product can cause severe skin burns following direct contact with the skin.
Eye	The product can produce severe chemical burns to the eye following direct contact. If timely and appropriate treatment is not available may cause permanent blindness.

## ◆ Environmental hazards

	Please refer to 12th chapter of SDS.
--	--------------------------------------

**3 Composition/information on ingredients**

**Substance/mixture**

	Mixture
--	---------

Component	CAS No.	EC No.	Concentration (wt, %)
Ammonia, aqueous solution	1336-21-6	215-647-6	40
Water	7732-18-5	231-791-2	60

**4 First-aid measures****Description of first aid measures**

<b>General advice</b>	Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.
<b>Eye contact</b>	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.
<b>Skin contact</b>	Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.
<b>Ingestion</b>	Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
<b>Inhalation</b>	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.
<b>Protecting of first-aiders</b>	Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.

**Most important symptoms/effects, acute and delayed**

1	Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.
---	--

**Indication of any immediate medical attention and special treatment needed**

1	Treat symptomatically.
2	Symptoms may be delayed.

**5 Fire-fighting measures****Extinguishing media**

<b>Suitable extinguishing media</b>	Small fire: dry chemical or CO <sub>2</sub> ; Large fire: water spray, fog or regular foam. Do not get water inside containers; Fire involving tanks: Fight fire from maximum distance or use unmanned master stream devices or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out.
<b>Unsuitable extinguishing media</b>	Fire involving tanks: do not direct water at source of leak or safety devices, icing may occur.

**Specific hazards arising from the substance or mixture**

1	High concentrations of gas may cause asphyxiation without warning.
2	Contact with gas may cause burns, severe injury and/ or frostbite.
3	Development of hazardous combustion gases or vapor possible in the event of fire.
4	May expansion or decompose explosively when heated or involved in fire.

**Special protective equipment and precautions for fire-fighters**

1	As in any fire, wear self-contained breathing apparatus ( MSHA/NIOSH approved or equivalent) and full protective gear.
2	Fight fire from a safe distance, with adequate cover.
3	Prevent fire extinguishing water from contaminating surface water or the ground water system.

## 6 Accidental release measures

### Personal precautions, protective equipment and emergency procedures

1	Use personal protective equipment, do not breathe gas/mist/vapour/spray.
2	Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges.
3	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

### Environmental precautions

1	Prevent further leakage or spillage if safe to do so.
2	Discharge into the environment must be avoided.

### Methods and materials for containment and cleaning up

1	Cut off the source of the leak as much as possible.
2	Keep leaks in a ventilated place.
3	Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.
4	Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.
5	Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container.

## 7 Handling and storage

### Precautions for safe handling

1	Handling is performed in a well ventilated place.
2	Wear suitable protective equipment.
3	Avoid contact with skin and eyes.
4	Keep away from heat/sparks/open flames/ hot surfaces.

### Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed.
2	Keep containers in a dry, cool and well-ventilated place.
3	Keep away from heat/sparks/open flames/hot surfaces.
4	Store away from incompatible materials and foodstuff containers.

## 8 Exposure controls/personal protection

### Control parameters

#### ◆ Occupational exposure limit values

Component	Country/Region	Limit value - Eight hours		Limit value - Short term	
		ppm	mg/m <sup>3</sup>	ppm	mg/m <sup>3</sup>
Ammonia, aqueous solution	Finland	20	14	50	36

## Engineering controls

1	Ensure adequate ventilation, especially in confined areas.
2	Ensure that eyewash stations and safety showers are close to the workstation location.
3	Use explosion-proof electrical/ventilating/lighting/equipment.
4	Set up emergency exit and necessary risk-elimination area.

## Personal protection equipment

General requirement	
Eye protection	Must wear appropriate anti-corrosion goggles.
Hand protection	Must wear acid and alkali resistant chemical protective gloves.
Respiratory protection	Must wear appropriate personal respiratory protective equipment.
Skin and body protection	Must wear acid and alkali resistant chemical protective clothing.

## 9 Physical and chemical properties and safety characteristics

### Physical and chemical properties

Appearance (physical state, color, etc.)	colorless liquid
Odor	强烈、刺鼻、特征性的窒息性臭味 ( Ammonia, aqueous solution )
Odor threshold	No information available ( Ammonia, aqueous solution )
pH	12 ( 20°C, 100g/L, Ammonia, aqueous solution )
Melting point/freezing point(°C)	-58 ( 25%, Ammonia, aqueous solution )
Initial boiling point and boiling range(°C)	38 ( 25%, Ammonia, aqueous solution )
Flash point(Closed cup, °C)	No information available ( Ammonia, aqueous solution )
Evaporation rate	No information available ( Ammonia, aqueous solution )
Flammability	No information available ( Ammonia, aqueous solution )
Upper/lower explosive limits[% (v/v)]	Upper limit :28( Ammonia, aqueous solution ) ;Lower limit :15( Ammonia, aqueous solution )
Vapor pressure	48kPa ( 20°C , 25%, Ammonia, aqueous solution )
Vapor density(Air = 1)	0.6~1.2 ( Ammonia, aqueous solution )
Relative density(Water=1)	0.9 ( 25%, Ammonia, aqueous solution )
Solubility	Soluble in water ( Ammonia, aqueous solution )
n-octanol/water partition coefficient	No information available ( Ammonia, aqueous solution )
Auto-ignition temperature(°C)	630 ( Ammonia, aqueous solution )
Decomposition temperature(°C)	No information available ( Ammonia, aqueous solution )
Kinematic viscosity	No information available ( Ammonia, aqueous solution )

## 10 Stability and reactivity

### Stability and reactivity

Reactivity	Contact with incompatible substances can cause decomposition or other chemical reactions.
------------	---

<b>Chemical stability</b>	Stable under proper operation and storage conditions.
<b>Possibility of hazardous reactions</b>	In contact with active metals (alkali metals, Na, Ca etc.) causes a reaction and release hydrogen.
<b>Conditions to avoid</b>	Incompatible materials, heat, flame and spark.
<b>Incompatible materials</b>	Alkali, sodium, calcium, and other active metal, halogen, metal oxide, nonmetal oxide, acyl halide and metal phosphide.
<b>Hazardous decomposition products</b>	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11 Toxicological information

### | Acute toxicity

Component	LD <sub>50</sub> (oral)	LD <sub>50</sub> (dermal)	LC <sub>50</sub> (inhalation,4h)
Ammonia, aqueous solution	350mg/kg(Rat)	No information available	No information available

### | Carcinogenicity

Component	List of carcinogens by the IARC Monographs	Report on Carcinogens by NTP	OSHA Carcinogen List
Ammonia, aqueous solution	Not Listed	Not Listed	Not Listed
Water	Not Listed	Not Listed	Not Listed

### | Others

Ammonia test solution	
<b>Skin corrosion/irritation</b>	Causes severe skin burns and eye damage(Category 1C)
<b>Serious eye damage/irritation</b>	Causes serious eye damage(Category 1)
<b>Skin sensitization</b>	Based on available data, the classification criteria are not met
<b>Respiratory sensitization</b>	Based on available data, the classification criteria are not met
<b>Reproductive toxicity</b>	Based on available data, the classification criteria are not met
<b>STOT-repeated exposure</b>	Based on available data, the classification criteria are not met
<b>Aspiration hazard</b>	Based on available data, the classification criteria are not met
<b>Germ cell mutagenicity</b>	Based on available data, the classification criteria are not met

## 12 Ecological information

### | Acute aquatic toxicity

Acute aquatic toxicity	No information available
------------------------	--------------------------

### | Chronic aquatic toxicity

Chronic aquatic toxicity	No information available
--------------------------	--------------------------

### | Persistence and degradability

Component	Persistence (water/soil)	Persistence (air)
Ammonia, aqueous solution	Low	Low

### | Bioaccumulative potential

Component	Bioaccumulative potential	Comments
Ammonia, aqueous solution	Low	Log Kow=0.229

### | Mobility in soil

Component	log Koc	Remark
Ammonia, aqueous solution	1.155	

## 13 Disposal considerations

### | Disposal considerations

Waste chemicals	Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.
Contaminated packaging	Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible.
Disposal recommendations	Refer to section waste chemicals and contaminated packaging.

## 14 Transport information

### | Label and Mark

Transporting Label	
--------------------	---

### | IMDG-CODE

UN number	2073
UN proper shipping name	AMMONIA SOLUTION relative density less than 0.880 at 15°C in water, with more than 35% but not more than 50% ammonia
Transport hazard class	2.2
Transport subsidiary hazard class	None
Packing group	The packagings must conform to package instructions of UN number
Marine pollutant ( Yes or no )	Yes

### | IATA-DGR

UN number	2073
UN proper shipping name	AMMONIA SOLUTION, relative density less than 0.880 at 15°C in water, with more than 35% but not more than 50% ammonia
Transport hazard class	2.2
Transport subsidiary hazard class	None
Packing group	The packagings must conform to package instructions of UN number

### | UN-ADR

UN number	2073
UN proper shipping name	AMMONIA SOLUTION, relative density less than 0.880 at 15°C in water, with

	more than 35% but not more than 50% ammonia
<b>Transport hazard class</b>	2.2
<b>Transport subsidiary hazard class</b>	None
<b>Packing group</b>	The packagings must conform to package instructions of UN number

### Transport in bulk according to IMO instruments

- ◆ Transport in bulk according to Annex II of MARPOL and the IBC code

	Not Available
--	---------------

- ◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

	Not Available
--	---------------

- ◆ Transport in bulk in accordance with the IGC Code

	Not Available
--	---------------

### Others

<b>Precautions for transport</b>	Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements.
----------------------------------	---

## 15 Regulatory information

### International chemical inventory

Component	A	B	C	D	E	F	G	H	I	J	K	L	M
<b>Ammonia, aqueous solution</b>	√	√	√	√	√	√	√	√	√	√	√	√	√

EC <sub>50</sub>	Effective Concentration 50%	PBT	Persistent, Bioaccumulative, Toxic
EC <sub>x</sub>	Effective Concentration X%	vPvB	very Persistent, very Bioaccumulative
P <sub>ow</sub>	Partition coefficient Octanol: Water	CMR	Carcinogens, mutagens or substances toxic to reproduction
BCF	Bioconcentration factor	RPE	Respiratory Protective Equipment
ED	Endocrine disruptor	HCS	Hazard Communication Standard

### Disclaimer

This Safety Data Sheet (SDS) was prepared according to OSHA HCS-2024. The data included was derived from international authoritative database and provided by the enterprise. Other information was based on the present

state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
