### **Safety Data Sheet**

# 2-Ethyl n-butyric acid

Version: V2.0.0.1

Report No.: BWJ5582-2016-MSDS-US

Creation Date: 2025/09/23

Revision Date: -

### \*Prepared according to American OSHA HCS-2024 (29 CFR 1910.1200)

### | Product identifier

| Product Name      | 2-Ethyl n-butyric acid |
|-------------------|------------------------|
| Cat No.           | BWJ5582-2016           |
| CAS No.           | 88-09-5                |
| EC No.            | 201-796-4              |
| Molecular Formula | C6H12O2                |

### Recommended use of the product and restrictions on use

| Relevant identified uses | Please consult manufacturer. |
|--------------------------|------------------------------|
| Uses advised against     | Please consult manufacturer. |

### Details of the supplier of the Safety Data Sheet

| Name of the company    | Weiyel Inc   |
|------------------------|--|
| Address of the company | Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China |
| Post code              | 465350   |
| Telephone number       | 010-58103678   |
| Fax number             | 010-84840368   |
| E-mail address         | info@weiyel.com  |

### | Emergency phone number

| Emergency phone number | l 010-58103678                          |
|------------------------|---|
| Emercency bhone humber | UIU=::::::::::::::::::::::::::::::::::: |

# 2 Hazard(s) identification

### Hazard classification according to 29 CFR 1910.1200

| Acute Toxicity - Dermal       | Category 3 |
|-------------------------------|------------|
| Serious eye damage/irritation | Category 1 |
| Reproductive toxicity         | Category 2 |

### Label elements

| Hazard pictograms |               |
|-------------------|---------------|
| Signal word       | <b>Danger</b> |

| Hazard | etato | ma | nte |
|--------|-------|----|-----|
| паzаги | State | пе | เหอ |

| H311 | Toxic in contact with skin                          |
|------|---|
| H318 | Causes serious eye damage                           |
| H361 | Suspected of damaging fertility or the unborn child |

### | Precautionary statements

### Prevention

| P201 | Obtain special instructions before use.   |
|------|---|
| P202 | Do not handle until all safety precautions have been read and understood.                     |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. |

### Response

| P321           | Specific treatment (see related instructions on the label).  |
|----------------|--|
| P302+P352      | IF ON SKIN: Wash with plenty of water.   |
| P361+P364      | Take off immediately all contaminated clothing and wash it before reuse.   |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
|                | ionoco, ii proconi ana cao, to aci comindo intoligi.   |

### Storage

| P405   St | ore | locked | up. |
|-----------|-----|--------|-----|
|-----------|-----|--------|-----|

### Disposal

| P501 | Dispose of contents/container in accordance with local/regional/national/ |
|------|---|
|      | international regulations.  |

### Other hazards

Not applicable.

No information available

### | Hazard description

Physical and chemical hazards

| <ul> <li>Health hazards</li> </ul> |   |
|------------------------------------|---|
| Inhaled                            | Inhalation of the product may produce adverse health effects or irritation of the respiratory tract following discomfort. |
| Ingestion                          | Accidental ingestion of the product may be harmful to the health of the individual.                                       |
| Skin Contact                       | Toxic in contact with skin, systemic effects may result following absorption.   |
| Eye                                | The product can produce severe chemical burns to the eye following direct contact.  |
| ▲ Environmental hazards            |   |

### Environmental hazards

# 3 Composition/information on ingredients

### Substance/mixture

| Substance |
|-----------|

| Component | CAS No. | EC No. | Concentration (wt, %) |
|-----------|---------|--------|-----------------------|
|-----------|---------|--------|-----------------------|

| 2-ethylbutyric acid | 88-09-5 | 201-796-4 | 99.97 |
|---------------------|---------|-----------|-------|

## 4 First-aid measures

### Description of first aid measures

| General advice             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.   |
|----------------------------|---|
| Eye contact                | Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.  |
| Skin contact               | Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.   |
| Ingestion                  | Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.   |
| Inhalation                 | Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately. |
| Protecting of first-aiders | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.  |

### Most important symptoms/effects, acute and delayed

Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.

### Indication of any immediate medical attention and special treatment needed

- 1 Treat symptomatically.
- 2 Symptoms may be delayed.

## 5 Fire-fighting measures

#### Extinguishing media

| Suitable extinguishing media   | Use extinguishing media suitable for surrounding area.                 |
|--------------------------------|--|
| Unsuitable extinguishing media | There is no restriction on the type of extinguisher which may be used. |

### Specific hazards arising from the substance or mixture

- 1 Development of hazardous combustion gases or vapor possible in the event of fire.
- 2 May expansion or decompose explosively when heated or involved in fire.

#### Special protective equipment and precautions for fire-fighters

- As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear.
- 2 Fight fire from a safe distance, with adequate cover.
- 3 Prevent fire extinguishing water from contaminating surface water or the ground water system.

## 6 Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

- 1 Use personal protective equipment, do not breathe gas/mist/vapour/spray.
- 2 Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges.
- 3 Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

2-Ethyl n-butyric acid Version: V2.0.0.1 Revision Date:

### **Environmental precautions**

- 1 Prevent further leakage or spillage if safe to do so.
- 2 Discharge into the environment must be avoided.

#### Methods and materials for containment and cleaning up

- 1 Cut off the source of the leak as much as possible.
- 2 Keep leaks in a ventilated place.
- Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.
- 4 Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.
- 5 Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container.

## 7 Handling and storage

### Precautions for safe handling

- 1 Handling is performed in a well ventilated place.
- 2 Wear suitable protective equipment.
- 3 Avoid contact with skin and eyes.
- 4 Keep away from heat/sparks/open flames/ hot surfaces.

### Conditions for safe storage, including any incompatibilities

- 1 Keep containers tightly closed.
- 2 Keep containers in a dry, cool and well-ventilated place.
- 3 Keep away from heat/sparks/open flames/hot surfaces.
- 4 Store away from incompatible materials and foodstuff containers.

## 8 Exposure controls/personal protection

#### Control parameters

Occupational exposure limit values

Occupational Exposure limit

No relevant regulations

### | Engineering controls

- 1 Ensure adequate ventilation, especially in confined areas.
- 2 Ensure that eyewash stations and safety showers are close to the workstation location.
- 3 Use explosion-proof electrical/ventilating/lighting/equipment.
- 4 Set up emergency exit and necessary risk-elimination area.

### Personal protection equipment

General requirement

Eye protection

Must wear appropriate anti-corrosion goggles.

Hand protection

Must wear acid and alkali resistant chemical protective gloves.

| Respiratory protection   | Must wear appropriate personal dust proof gas mask.               |
|--------------------------|---|
| Skin and body protection | Must wear acid and alkali resistant chemical protective clothing. |

# 9 Physical and chemical properties and safety characteristics

### | Physical and chemical properties

| 1 your annut out out out propo              |  |
|---|--|
| Appearance (physical state, color, etc.)    | colorless liquid   |
| Odor  | No information available   |
| Odor threshold                              | No information available   |
| рН  | No information available   |
| Melting point/freezing point(°C)            | No information available   |
| Initial boiling point and boiling range(°C) | >35  |
| Flash point(Closed cup,°C)                  | No information available   |
| Evaporation rate                            | No information available   |
| Flammability                                | No information available   |
| Upper/lower explosive<br>limits[%(v/v)]     | Upper limit: No information available; Lower limit: No information available |
| Vapor pressure                              | No information available   |
| Vapor density(Air = 1)                      | No information available   |
| Relative density(Water=1)                   | No information available   |
| Solubility                                  | No information available   |
| n-octanol/water partition coefficient       | No information available   |
| Auto-ignition temperature(°C)               | No information available   |
| Decomposition temperature(°C)               | No information available   |
| Kinematic viscosity                         | No information available   |
|   | -  |

# 10 Stability and reactivity

### | Stability and reactivity

| Reactivity               | Contact with incompatible substances can cause decomposition or other chemical reactions. |
|--------------------------|---|
| Chemical stability       | Stable under proper operation and storage conditions.                                     |
| Possibility of hazardous | No information available.   |
| reactions                |   |
| Conditions to avoid      | Incompatible materials, heat, flame and spark.  |
| Incompatible materials   | No information available.   |
| Hazardous decomposition  | Under normal conditions of storage and use, hazardous decomposition products              |
| products                 | should not be produced.   |

## 11 Toxicological information

### Acute toxicity

| Component           | LD <sub>50</sub> (oral) | LD <sub>50</sub> (dermal) | LC <sub>50</sub> (inhalation,4h) |
|---------------------|-------------------------|---------------------------|----------------------------------|
| 2-ethylbutyric acid | 2200mg/kg(Rat)          | 478mg/kg(Rabbit)          | No information available         |

2-Ethyl n-butyric acid Version: V2.0.0.1 Revision Date:

### | Carcinogenicity

| Component           | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP | OSHA Carcinogen List |
|---------------------|--|------------------------------|----------------------|
| 2-ethylbutyric acid | Not Listed                                 | Not Listed                   | Not Listed           |

### Others

| 2-ethylbutyric acid(Component) |  |  |  |  |
|--------------------------------|--|--|--|--|
| Skin corrosion/irritation      | Based on available data, the classification criteria are not met |  |  |  |
| Serious eye damage/irritation  | Causes serious eye damage(Category 1)                            |  |  |  |
| Skin sensitization             | Based on available data, the classification criteria are not met |  |  |  |
| Respiratory sensitization      | Based on available data, the classification criteria are not met |  |  |  |
| Reproductive toxicity          | Suspected of damaging fertility or the unborn child(Category 2)  |  |  |  |
| STOT-repeated exposure         | Based on available data, the classification criteria are not met |  |  |  |
| Aspiration hazard              | Based on available data, the classification criteria are not met |  |  |  |
| Germ cell mutagenicity         | Based on available data, the classification criteria are not met |  |  |  |

# 12 Ecological information

### Acute aquatic toxicity

| Component           | Fish                                  | Crustaceans                                     | Algae or other aquatic plants              |
|---------------------|---------------------------------------|---|--|
| 2-ethylbutyric acid | LC <sub>50</sub> : 50mg/L (96h)(Fish) | EC <sub>50</sub> : 72mg/L<br>(48h)(Crustaceans) | ErC <sub>50</sub> : 73mg/L<br>(72h)(Algae) |

## | Chronic aquatic toxicity

| Component           | Fish                     | Crustaceans                   | Algae or other aquatic plants |
|---------------------|--------------------------|-------------------------------|-------------------------------|
| 2-ethylbutyric acid | No information available | NOEC :<br>49mg/L(Crustaceans) | NOEC : 39mg/L(Algae)          |

## | Persistence and degradability

| Component           | Persistence (water/soil) | Persistence (air) |  |  |  |
|---------------------|--------------------------|-------------------|--|--|--|
| 2-ethylbutyric acid | Low                      | Low               |  |  |  |

### | Bioaccumulative potential

| Component           | Bioaccumulative potential | Comments     |
|---------------------|---------------------------|--------------|
| 2-ethylbutyric acid | Low                       | Log Kow=1.68 |

## | Mobility in soil

| Component           | log Koc | Remark |
|---------------------|---------|--------|
| 2-ethylbutyric acid | 0.85    |        |

# 13 Disposal considerations

### Disposal considerations

| Waste chemicals          | Before disposal should refer to the relevant national and local laws and    |
|--------------------------|---|
|                          | regulation. Recommend the use of incineration disposal.                     |
| Contaminated packaging   | Containers may still present chemical hazard when empty. Keep away from hot |
|                          | and ignition source of fire. Return to supplier for recycling if possible.  |
| Disposal recommendations | Refer to section waste chemicals and contaminated packaging.                |

## 14 Transport information

#### Label and Mark

Transporting Label | Not applicable

### | IMDG-CODE

IMDG-CODE NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### IATA-DGR

IATA-DGR NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### UN-ADR

UN-ADR NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Transport in bulk according to IMO instruments

◆ Transport in bulk according to Annex II of MARPOL and the IBC code

Not Available

◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

Not Available

◆ Transport in bulk in accordance with the IGC Code

Not Available

#### Others

**Precautions for transport** 

Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements.

## 15 Regulatory information

### International chemical inventory
