

## Safety Data Sheet

# Metribuzin

Version : V2.0.0.1

Report No. : BWN0025-2016-MSDS-US

Creation Date : 2025/09/12

Revision Date : 2025/09/18

\*Prepared according to American OSHA HCS-2024 (29 CFR 1910.1200)

## 1 Identification

### Product identifier

|                   |                                                              |
|-------------------|--------------------------------------------------------------|
| Product Name      | Metribuzin                                                   |
| Cat No.           | BWN0025-2016                                                 |
| CAS No.           | 21087-64-9                                                   |
| EC No.            | 244-209-7                                                    |
| Molecular Formula | C <sub>8</sub> H <sub>14</sub> N <sub>4</sub> O <sub>5</sub> |

### Recommended use of the product and restrictions on use

|                          |                              |
|--------------------------|------------------------------|
| Relevant identified uses | Please consult manufacturer. |
| Uses advised against     | Please consult manufacturer. |

### Details of the supplier of the Safety Data Sheet

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| Name of the company    | Weiyel Inc                                                                                           |
| Address of the company | Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China |
| Post code              | 465350                                                                                               |
| Telephone number       | 010-58103678                                                                                         |
| Fax number             | 010-84840368                                                                                         |
| E-mail address         | info@weiyel.com                                                                                      |

### Emergency phone number

|------------------------|--------------|
| Emergency phone number | 010-58103678 |
|------------------------|--------------|

## 2 Hazard(s) identification

### Hazard classification according to 29 CFR 1910.1200

|                                                                                |            |
|--------------------------------------------------------------------------------|------------|
| Acute Toxicity - Oral                                                          | Category 4 |
| Skin Corrosion/Irritation                                                      | Category 2 |
| Serious eye damage/irritation                                                  | Category 2 |
| Acute Toxicity - Inhalation                                                    | Category 3 |
| Specific target organ toxicity - single exposure; respiratory tract irritation | Category 3 |
| Reproductive toxicity                                                          | Category 2 |
| Specific target organ toxicity - repeated exposure                             | Category 2 |

## Label elements

|                   |                                                                                    |
|-------------------|------------------------------------------------------------------------------------|
| Hazard pictograms |  |
| Signal word       | <b>Danger</b>                                                                      |

## Hazard statements

|      |                                                                   |
|------|-------------------------------------------------------------------|
| H302 | Harmful if swallowed                                              |
| H315 | Causes skin irritation                                            |
| H319 | Causes serious eye irritation                                     |
| H331 | Toxic if inhaled                                                  |
| H335 | May cause respiratory irritation                                  |
| H361 | Suspected of damaging fertility or the unborn child               |
| H373 | May cause damage to organs through prolonged or repeated exposure |

## Precautionary statements

### Prevention

|      |                                                                                               |
|------|-----------------------------------------------------------------------------------------------|
| P201 | Obtain special instructions before use.                                                       |
| P202 | Do not handle until all safety precautions have been read and understood.                     |
| P260 | Do not breathe dust/fume.                                                                     |
| P264 | Wash hands and other parts of the body (if related) thoroughly after handling.                |
| P270 | Do not eat, drink or smoke when using this product.                                           |
| P271 | Use only outdoors or with adequate ventilation.                                               |
| P280 | Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. |

### Response

|                |                                                                                                                                  |
|----------------|----------------------------------------------------------------------------------------------------------------------------------|
| P321           | Specific treatment (see related instructions on the label).                                                                      |
| P330           | Rinse mouth.                                                                                                                     |
| P302+P352      | IF ON SKIN: Wash with plenty of water.                                                                                           |
| P304+P340      | IF INHALED: Remove person to fresh air and keep comfortable for breathing.                                                       |
| P362+P364      | Take off contaminated clothing and wash it before reuse.                                                                         |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |

### Storage

|           |                                                                  |
|-----------|------------------------------------------------------------------|
| P405      | Store locked up.                                                 |
| P403+P233 | Store in a well-ventilated place. Keep container tightly closed. |

### Disposal

|      |                                                                                                     |
|------|-----------------------------------------------------------------------------------------------------|
| P501 | Dispose of contents/container in accordance with local/regional/national/international regulations. |
|------|-----------------------------------------------------------------------------------------------------|

## Other hazards

|  |                 |
|--|-----------------|
|  | Not applicable. |
|--|-----------------|

## Hazard description

### Physical and chemical hazards

|                         |                                                                                                                                                                                                                                                |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                         | No information available                                                                                                                                                                                                                       |
| ◆ Health hazards        |                                                                                                                                                                                                                                                |
| Inhaled                 | Inhalation of dusts or fumes, especially for prolonged periods, may produce respiratory discomfort and occasionally, distress. Inhalation of dusts, generated by the product, during the course of normal handling, may produce toxic effects. |
| Ingestion               | Accidental ingestion of the product may be harmful.                                                                                                                                                                                            |
| Skin Contact            | The product can cause skin irritation following direct contact with the skin.                                                                                                                                                                  |
| Eye                     | This product may cause serious eye irritation. Severe inflammation may be expected with pain following direct contact with the eye.                                                                                                            |
| ◆ Environmental hazards |                                                                                                                                                                                                                                                |
|                         | Please refer to 12th chapter of SDS.                                                                                                                                                                                                           |

### 3 Composition/information on ingredients

#### | Substance/mixture

|            | Substance  |           |                       |
|------------|------------|-----------|-----------------------|
| Component  | CAS No.    | EC No.    | Concentration (wt, %) |
| Metribuzin | 21087-64-9 | 244-209-7 | 99.10                 |

### 4 First-aid measures

#### | Description of first aid measures

|                            |                                                                                                                                                |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.                                        |
| Eye contact                | First rinse with plenty of water for several minutes (remove contact lenses if easily possible), then take to a doctor.                        |
| Skin contact               | Rinse and then wash skin with water and soap.                                                                                                  |
| Ingestion                  | Rinse mouth. Rest.                                                                                                                             |
| Inhalation                 | Fresh air, rest.                                                                                                                               |
| Protecting of first-aiders | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination. |

#### | Most important symptoms/effects, acute and delayed

|   |                                                                                                                                        |
|---|----------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure. |
|---|----------------------------------------------------------------------------------------------------------------------------------------|

#### | Indication of any immediate medical attention and special treatment needed

|   |                          |
|---|--------------------------|
| 1 | Treat symptomatically.   |
| 2 | Symptoms may be delayed. |

### 5 Fire-fighting measures

#### | Extinguishing media

|                                |                                                                                                                                                                                                                              |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media   | Small fire: dry chemical, CO <sub>2</sub> , water spray or regular foam; Large fire: water spray, fog or regular foam; Fire involving tanks: cool containers with flooding quantities of water until well after fire is out. |
| Unsuitable extinguishing media | Large fire: Do not scatter spilled material with high-pressure water streams.                                                                                                                                                |

**| Specific hazards arising from the substance or mixture**

|   |                                                                                   |
|---|-----------------------------------------------------------------------------------|
| 1 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 2 | May expansion or decompose explosively when heated or involved in fire.           |

**| Special protective equipment and precautions for fire-fighters**

|   |                                                                                                                        |
|---|------------------------------------------------------------------------------------------------------------------------|
| 1 | As in any fire, wear self-contained breathing apparatus ( MSHA/NIOSH approved or equivalent) and full protective gear. |
| 2 | Fight fire from a safe distance, with adequate cover.                                                                  |
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system.                          |

**6 Accidental release measures****| Personal precautions, protective equipment and emergency procedures**

|   |                                                                                                                     |
|---|---------------------------------------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| 2 | Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.                                   |
| 3 | Use personal protective equipment, do not breathe dust/fume.                                                        |

**| Environmental precautions**

|   |                                                       |
|---|-------------------------------------------------------|
| 1 | Prevent further leakage or spillage if safe to do so. |
| 2 | Discharge into the environment must be avoided.       |

**| Methods and materials for containment and cleaning up**

|   |                                                                                                                                         |
|---|-----------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Cut off the source of the leak as much as possible.                                                                                     |
| 2 | Keep leaks in a ventilated place.                                                                                                       |
| 3 | Isolation of contaminated areas and restrictions on access.                                                                             |
| 4 | It is recommended that emergency personnel wear dust masks.                                                                             |
| 5 | Collect the spill with a clean shovel and place it in a clean, dry, loosely closed container and move the container away from the leak. |
| 6 | Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.                      |

**7 Handling and storage****| Precautions for safe handling**

|   |                                                       |
|---|-------------------------------------------------------|
| 1 | Handling is performed in a well ventilated place.     |
| 2 | Wear suitable protective equipment.                   |
| 3 | Avoid contact with skin and eyes.                     |
| 4 | Keep away from heat/sparks/open flames/ hot surfaces. |

**| Conditions for safe storage, including any incompatibilities**

|   |                                                                  |
|---|------------------------------------------------------------------|
| 1 | Keep containers tightly closed.                                  |
| 2 | Keep containers in a dry, cool and well-ventilated place.        |
| 3 | Keep away from heat/sparks/open flames/hot surfaces.             |
| 4 | Store away from incompatible materials and foodstuff containers. |

**8 Exposure controls/personal protection****| Control parameters**

### ◆ Occupational exposure limit values

| Component  | Country/Region   | Limit value - Eight hours |                       | Limit value - Short term |                   |
|------------|------------------|---------------------------|-----------------------|--------------------------|-------------------|
|            |                  | ppm                       | mg/m <sup>3</sup>     | ppm                      | mg/m <sup>3</sup> |
| Metribuzin | Australia        | -                         | 5                     | -                        | -                 |
|            | Canada - Ontario | -                         | 5                     | -                        | -                 |
|            | New Zealand      | -                         | 5                     | -                        | -                 |
|            | USA - ACGIH      | -                         | 1(Inhalable fraction) | -                        | -                 |
|            | USA - NIOSH      | -                         | 5                     | -                        | -                 |
|            | Austria          | -                         | 5                     | -                        | 10                |

### | Engineering controls

|   |                                                                                        |
|---|----------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Use explosion-proof electrical/ventilating/lighting/equipment.                         |
| 4 | Set up emergency exit and necessary risk-elimination area.                             |

### | Personal protection equipment

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General requirement      |      |
| Eye protection           | Must wear appropriate safety goggles.                                                                                                                                                                                                                                                                                                                                                                                             |
| Hand protection          | Must wear appropriate chemical protective gloves.                                                                                                                                                                                                                                                                                                                                                                                 |
| Respiratory protection   | Must wear appropriate personal dust proof gas mask.                                                                                                                                                                                                                                                                                                                                                                               |
| Skin and body protection | Must wear appropriate chemical protective clothing and chemical resistant shoes.                                                                                                                                                                                                                                                                                                                                                  |

## 9 Physical and chemical properties and safety characteristics

### | Physical and chemical properties

|                                             |                                                                                 |
|---------------------------------------------|---------------------------------------------------------------------------------|
| Appearance (physical state, color, etc.)    | White to beige crystalline powder with a slight mercaptan odor.                 |
| Odor                                        | No information available                                                        |
| Odor threshold                              | No information available                                                        |
| pH                                          | No information available                                                        |
| Melting point/freezing point(°C)            | 125                                                                             |
| Initial boiling point and boiling range(°C) | 132 ( 0.02 hPa )                                                                |
| Flash point(Closed cup,°C)                  | Not applicable                                                                  |
| Evaporation rate                            | Not applicable                                                                  |
| Flammability                                | No information available                                                        |
| Upper/lower explosive limits[%(v/v)]        | Upper limit : No information available ; Lower limit : No information available |
| Vapor pressure                              | < 1Pa ( 20°C )                                                                  |
| Vapor density(Air = 1)                      | Not applicable                                                                  |

|                                       |                            |
|---------------------------------------|----------------------------|
| Relative density(Water=1)             | 1.28                       |
| Solubility                            | Partly miscible with water |
| n-octanol/water partition coefficient | 1.6                        |
| Auto-ignition temperature(°C)         | No information available   |
| Decomposition temperature(°C)         | No information available   |
| Kinematic viscosity                   | Not applicable             |

## 10 Stability and reactivity

### | Stability and reactivity

|                                    |                                                                                                      |
|------------------------------------|------------------------------------------------------------------------------------------------------|
| Reactivity                         | Contact with incompatible substances can cause decomposition or other chemical reactions.            |
| Chemical stability                 | Stable under proper operation and storage conditions.                                                |
| Possibility of hazardous reactions | No information available.                                                                            |
| Conditions to avoid                | Incompatible materials, heat, flame and spark.                                                       |
| Incompatible materials             | No information available.                                                                            |
| Hazardous decomposition products   | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## 11 Toxicological information

### | Acute toxicity

| Component  | LD <sub>50</sub> (oral) | LD <sub>50</sub> (dermal) | LC <sub>50</sub> (inhalation,4h) |
|------------|-------------------------|---------------------------|----------------------------------|
| Metribuzin | 322mg/kg(Rat)           | > 20000mg/kg(Rabbit)      | > 0.86mg/L(Rat)                  |

### | Carcinogenicity

| Component  | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP | OSHA Carcinogen List |
|------------|--------------------------------------------|------------------------------|----------------------|
| Metribuzin | Not Listed                                 | Not Listed                   | Not Listed           |

### | Others

| Metribuzin(Component)         |                                                                               |
|-------------------------------|-------------------------------------------------------------------------------|
| Skin corrosion/irritation     | Causes skin irritation(Category 2)                                            |
| Serious eye damage/irritation | Causes serious eye irritation(Category 2)                                     |
| Skin sensitization            | Based on available data, the classification criteria are not met              |
| Respiratory sensitization     | Based on available data, the classification criteria are not met              |
| Reproductive toxicity         | Suspected of damaging fertility or the unborn child(Category 2)               |
| STOT-single exposure          | May cause respiratory irritation(Category 3)                                  |
| STOT-repeated exposure        | May cause damage to organs through prolonged or repeated exposure(Category 2) |
| Aspiration hazard             | Based on available data, the classification criteria are not met              |
| Germ cell mutagenicity        | Based on available data, the classification criteria are not met              |

## 12 Ecological information

**| Acute aquatic toxicity**

| Component  | Fish                                       | Crustaceans                                     | Algae or other aquatic plants                 |
|------------|--------------------------------------------|-------------------------------------------------|-----------------------------------------------|
| Metribuzin | LC <sub>50</sub> : >100mg/L<br>(96h)(Fish) | EC <sub>50</sub> : 88mg/L<br>(48h)(Crustaceans) | ErC <sub>50</sub> : 0.039mg/L<br>(72h)(Algae) |

**| Chronic aquatic toxicity**

| Component  | Fish                     | Crustaceans                    | Algae or other aquatic plants |
|------------|--------------------------|--------------------------------|-------------------------------|
| Metribuzin | No information available | NOEC :<br>1.1mg/L(Crustaceans) | NOEC :<br>0.0020mg/L(Algae)   |

**| Persistence and degradability**

| Component  | Persistence (water/soil) | Persistence (air) |
|------------|--------------------------|-------------------|
| Metribuzin | High                     | High              |

**| Bioaccumulative potential**

| Component  | Bioaccumulative potential | Comments    |
|------------|---------------------------|-------------|
| Metribuzin | Low                       | Log Kow=1.6 |

**| Mobility in soil**

| Component  | log Koc | Remark |
|------------|---------|--------|
| Metribuzin | 3.078   |        |

**13 Disposal considerations****| Disposal considerations**

|                          |                                                                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste chemicals          | Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.                       |
| Contaminated packaging   | Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible. |
| Disposal recommendations | Refer to section waste chemicals and contaminated packaging.                                                                                           |

**14 Transport information****| Label and Mark**

|                    |                                                                                     |
|--------------------|-------------------------------------------------------------------------------------|
| Transporting Label |  |

|--|---------------|

### Others

|                           |                                                                                                                                                                                                                                                                                                                                                   |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions for transport | Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements. |
