

## Safety Data Sheet

# Profenofos standard

Version : V2.0.0.1

Report No. : BWN0133-2016-MSDS-US

Creation Date : 2025/10/11

Revision Date : -

\*Prepared according to American OSHA HCS-2024 (29 CFR 1910.1200)

## 1 Identification

### Product identifier

|                   |                     |
|-------------------|---------------------|
| Product Name      | Profenofos standard |
| Cat No.           | BWN0133-2016        |
| CAS No.           | 41198-08-7          |
| EC No.            | 255-255-2           |
| Molecular Formula | C11H15BrClO3PS      |

### Recommended use of the product and restrictions on use

|                          |                              |
|--------------------------|------------------------------|
| Relevant identified uses | Please consult manufacturer. |
| Uses advised against     | Please consult manufacturer. |

### Details of the supplier of the Safety Data Sheet

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| Name of the company    | Weiyel Inc                                                                                           |
| Address of the company | Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China |
| Post code              | 465350                                                                                               |
| Telephone number       | 010-58103678                                                                                         |
| Fax number             | 010-84840368                                                                                         |
| E-mail address         | info@weiyel.com                                                                                      |

### Emergency phone number

|                        |              |
|------------------------|--------------|
| Emergency phone number | 010-58103678 |
|------------------------|--------------|

## 2 Hazard(s) identification

### Hazard classification according to 29 CFR 1910.1200

|                             |            |
|-----------------------------|------------|
| Acute Toxicity - Oral       | Category 4 |
| Acute Toxicity - Dermal     | Category 4 |
| Acute Toxicity - Inhalation | Category 3 |

### Label elements

|                   |               |
|-------------------|---------------|
| Hazard pictograms |               |
| Signal word       | <b>Danger</b> |

**Hazard statements**

|             |                              |
|-------------|------------------------------|
| <b>H302</b> | Harmful if swallowed         |
| <b>H312</b> | Harmful in contact with skin |
| <b>H331</b> | Toxic if inhaled             |

**Precautionary statements**

## ◆ Prevention

|             |                                                                                               |
|-------------|-----------------------------------------------------------------------------------------------|
| <b>P261</b> | Avoid breathing gas/mist/vapour/spray.                                                        |
| <b>P264</b> | Wash hands and other parts of the body (if related) thoroughly after handling.                |
| <b>P270</b> | Do not eat, drink or smoke when using this product.                                           |
| <b>P271</b> | Use only outdoors or with adequate ventilation.                                               |
| <b>P280</b> | Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. |

## ◆ Response

|                  |                                                                            |
|------------------|----------------------------------------------------------------------------|
| <b>P321</b>      | Specific treatment (see related instructions on the label).                |
| <b>P330</b>      | Rinse mouth.                                                               |
| <b>P302+P352</b> | IF ON SKIN: Wash with plenty of water.                                     |
| <b>P304+P340</b> | IF INHALED: Remove person to fresh air and keep comfortable for breathing. |
| <b>P362+P364</b> | Take off contaminated clothing and wash it before reuse.                   |

## ◆ Storage

|                  |                                                                  |
|------------------|------------------------------------------------------------------|
| <b>P405</b>      | Store locked up.                                                 |
| <b>P403+P233</b> | Store in a well-ventilated place. Keep container tightly closed. |

## ◆ Disposal

|             |                                                                                                     |
|-------------|-----------------------------------------------------------------------------------------------------|
| <b>P501</b> | Dispose of contents/container in accordance with local/regional/national/international regulations. |
|-------------|-----------------------------------------------------------------------------------------------------|

**Other hazards**

|  |                 |
|--|-----------------|
|  | Not applicable. |
|--|-----------------|

**Hazard description**

## ◆ Physical and chemical hazards

|  |                          |
|--|--------------------------|
|  | No information available |
|--|--------------------------|

## ◆ Health hazards

|                     |                                                                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhaled</b>      | Inhalation of vapours or aerosols (mists, fumes), generated by the product during the course of normal handling, may produce toxic effects. |
| <b>Ingestion</b>    | Accidental ingestion of the product may be harmful.                                                                                         |
| <b>Skin Contact</b> | Skin contact with the product may be harmful to the health of the individual, systemic effects may result following absorption.             |
| <b>Eye</b>          | This product may cause temporary discomfort following direct contact with the eye.                                                          |

## ◆ Environmental hazards

|  |                                      |
|--|--------------------------------------|
|  | Please refer to 12th chapter of SDS. |
|--|--------------------------------------|

**3 Composition/information on ingredients****Substance/mixture**

|                   |                |               |                              |
|-------------------|----------------|---------------|------------------------------|
| Substance         |                |               |                              |
| <b>Component</b>  | <b>CAS No.</b> | <b>EC No.</b> | <b>Concentration (wt, %)</b> |
| <b>Profenofos</b> | 41198-08-7     | 255-255-2     | 99                           |

## 4 First-aid measures

### Description of first aid measures

|                                   |                                                                                                                                                                                                                                             |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>             | Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.                                                                                                                                     |
| <b>Eye contact</b>                | Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.                                                                                                                                |
| <b>Skin contact</b>               | Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.                                                                         |
| <b>Ingestion</b>                  | Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.                                                                                                                               |
| <b>Inhalation</b>                 | Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately. |
| <b>Protecting of first-aiders</b> | Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.                                                                                              |

### Most important symptoms/effects, acute and delayed

|   |                                                                                                                                        |
|---|----------------------------------------------------------------------------------------------------------------------------------------|
| 1 | Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure. |
|---|----------------------------------------------------------------------------------------------------------------------------------------|

### Indication of any immediate medical attention and special treatment needed

|   |                          |
|---|--------------------------|
| 1 | Treat symptomatically.   |
| 2 | Symptoms may be delayed. |

## 5 Fire-fighting measures

### Extinguishing media

|                                       |                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>   | Small fire: dry chemical, CO <sub>2</sub> or water spray; Large fire: dry chemical, CO <sub>2</sub> , alcohol-resistant foam or water spray; Fire involving tanks, rail tank cars or highway tanks: Fight fire from maximum distance or use unmanned master stream devices or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out. Do not get water inside containers. |
| <b>Unsuitable extinguishing media</b> | No information available.                                                                                                                                                                                                                                                                                                                                                                                          |

### Specific hazards arising from the substance or mixture

|   |                                                                                   |
|---|-----------------------------------------------------------------------------------|
| 1 | May emit poisonous fumes on fire.                                                 |
| 2 | Development of hazardous combustion gases or vapor possible in the event of fire. |
| 3 | May expansion or decompose explosively when heated or involved in fire.           |

### Special protective equipment and precautions for fire-fighters

|   |                                                                                                                       |
|---|-----------------------------------------------------------------------------------------------------------------------|
| 1 | As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear. |
| 2 | Fight fire from a safe distance, with adequate cover.                                                                 |

- |   |                                                                                               |
|---|-----------------------------------------------------------------------------------------------|
| 3 | Prevent fire extinguishing water from contaminating surface water or the ground water system. |
|---|-----------------------------------------------------------------------------------------------|

## 6 Accidental release measures

### Personal precautions, protective equipment and emergency procedures

- |   |                                                                                                                     |
|---|---------------------------------------------------------------------------------------------------------------------|
| 1 | Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire.                    |
| 2 | Do not touch or walk through spilled material.                                                                      |
| 3 | Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.                 |
| 4 | Use personal protective equipment, do not breathe gas/mist/vapour/spray.                                            |
| 5 | Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. |
| 6 | Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.                                   |

### Environmental precautions

- |   |                                                       |
|---|-------------------------------------------------------|
| 1 | Prevent further leakage or spillage if safe to do so. |
| 2 | Discharge into the environment must be avoided.       |

### Methods and materials for containment and cleaning up

- |    |                                                                                                                                 |
|----|---------------------------------------------------------------------------------------------------------------------------------|
| 1  | Do not touch or cross spills.                                                                                                   |
| 2  | Cover with anti-solvent foam to reduce evaporation.                                                                             |
| 3  | It is recommended that emergency personnel wear positive pressure self-contained breathing apparatus and wear anti-virus suits. |
| 4  | Spray water disperses the vapor and dilutes the liquid spill.                                                                   |
| 5  | Do not touch broken containers and spills before putting on appropriate protective clothing.                                    |
| 6  | Cut off the source of the leak as much as possible.                                                                             |
| 7  | Keep leaks in a ventilated place.                                                                                               |
| 8  | Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.        |
| 9  | Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.                                            |
| 10 | Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container.     |

## 7 Handling and storage

### Precautions for safe handling

- |   |                                                       |
|---|-------------------------------------------------------|
| 1 | Handling is performed in a well ventilated place.     |
| 2 | Wear suitable protective equipment.                   |
| 3 | Avoid contact with skin and eyes.                     |
| 4 | Keep away from heat/sparks/open flames/ hot surfaces. |

### Conditions for safe storage, including any incompatibilities

- |   |                                                           |
|---|-----------------------------------------------------------|
| 1 | Keep containers tightly closed.                           |
| 2 | Keep containers in a dry, cool and well-ventilated place. |
| 3 | Keep away from heat/sparks/open flames/hot surfaces.      |

## 8 Exposure controls/personal protection

### Control parameters

|                                           |                         |
|-------------------------------------------|-------------------------|
| <b>Occupational Exposure limit values</b> | No relevant regulations |
|-------------------------------------------|-------------------------|

## Engineering controls

|   |                                                                                        |
|---|----------------------------------------------------------------------------------------|
| 1 | Ensure adequate ventilation, especially in confined areas.                             |
| 2 | Ensure that eyewash stations and safety showers are close to the workstation location. |
| 3 | Use explosion-proof electrical/ventilating/lighting/equipment.                         |
| 4 | Set up emergency exit and necessary risk-elimination area.                             |

## Personal protection equipment

|                                 |                                                                                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General requirement</b>      |      |
| <b>Eye protection</b>           | Must wear appropriate safety goggles.                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Hand protection</b>          | Must wear appropriate chemical protective gloves.                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Respiratory protection</b>   | Must wear appropriate personal dust proof gas mask.                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Skin and body protection</b> | Must wear appropriate chemical protective clothing and chemical resistant shoes.                                                                                                                                                                                                                                                                                                                                             |

## 9 Physical and chemical properties and safety characteristics

### Physical and chemical properties

|                                                    |                                                                                 |
|----------------------------------------------------|---------------------------------------------------------------------------------|
| <b>Appearance (physical state, color, etc.)</b>    | Colorless to pale yellow liquid                                                 |
| <b>Odor</b>                                        | No information available                                                        |
| <b>Odor threshold</b>                              | No information available                                                        |
| <b>pH</b>                                          | No information available                                                        |
| <b>Melting point/freezing point(°C)</b>            | <25 °C                                                                          |
| <b>Initial boiling point and boiling range(°C)</b> | 100 ( 0.0135 Torr )                                                             |
| <b>Flash point(Closed cup,°C)</b>                  | 124 ( 101.325 kPa )                                                             |
| <b>Evaporation rate</b>                            | No information available                                                        |
| <b>Flammability</b>                                | No information available                                                        |
| <b>Upper/lower explosive limits[%(v/v)]</b>        | Upper limit : No information available ; Lower limit : No information available |
| <b>Vapor pressure</b>                              | No information available                                                        |
| <b>Vapor density(Air = 1)</b>                      | No information available                                                        |
| <b>Relative density(Water=1)</b>                   | 1.455 ( 20°C )                                                                  |
| <b>Solubility</b>                                  | 16.1mg/L ( 25 °C(pH=6.9) )                                                      |
| <b>n-octanol/water partition coefficient</b>       | 4.68                                                                            |
| <b>Auto-ignition temperature(°C)</b>               | No information available                                                        |
| <b>Decomposition temperature(°C)</b>               | No information available                                                        |
| <b>Kinematic viscosity</b>                         | No information available                                                        |

## 10 Stability and reactivity

### Stability and reactivity

|                                           |                                                                                                      |
|-------------------------------------------|------------------------------------------------------------------------------------------------------|
| <b>Reactivity</b>                         | Contact with incompatible substances can cause decomposition or other chemical reactions.            |
| <b>Chemical stability</b>                 | Stable under proper operation and storage conditions.                                                |
| <b>Possibility of hazardous reactions</b> | No information available.                                                                            |
| <b>Conditions to avoid</b>                | Incompatible materials, heat, flame and spark.                                                       |
| <b>Incompatible materials</b>             | No information available.                                                                            |
| <b>Hazardous decomposition products</b>   | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## 11 Toxicological information

### | Acute toxicity

| Component  | LD <sub>50</sub> (oral) | LD <sub>50</sub> (dermal) | LC <sub>50</sub> (inhalation,4h) |
|------------|-------------------------|---------------------------|----------------------------------|
| Profenofos | 358mg/kg(Rat)           | 1610mg/kg(Rat)            | 3mg/L(Rat)                       |

### | Carcinogenicity

| Component  | List of carcinogens by the IARC Monographs | Report on Carcinogens by NTP | OSHA Carcinogen List |
|------------|--------------------------------------------|------------------------------|----------------------|
| Profenofos | Not Listed                                 | Not Listed                   | Not Listed           |

### | Others

| Profenofos(Component)         |                                                                  |
|-------------------------------|------------------------------------------------------------------|
| Skin corrosion/irritation     | Based on available data, the classification criteria are not met |
| Serious eye damage/irritation | Based on available data, the classification criteria are not met |
| Skin sensitization            | Based on available data, the classification criteria are not met |
| Respiratory sensitization     | Based on available data, the classification criteria are not met |
| Reproductive toxicity         | Based on available data, the classification criteria are not met |
| STOT-repeated exposure        | Based on available data, the classification criteria are not met |
| Aspiration hazard             | Based on available data, the classification criteria are not met |
| Germ cell mutagenicity        | Based on available data, the classification criteria are not met |

## 12 Ecological information

### | Acute aquatic toxicity

| Component  | Fish                                     | Crustaceans                                       | Algae or other aquatic plants |
|------------|------------------------------------------|---------------------------------------------------|-------------------------------|
| Profenofos | LC <sub>50</sub> : 0.021mg/L (96h)(Fish) | EC <sub>50</sub> : 0.00106mg/L (48h)(Crustaceans) | No information available      |

### | Chronic aquatic toxicity

|                          |                          |
|--------------------------|--------------------------|
| Chronic aquatic toxicity | No information available |
|--------------------------|--------------------------|

### | Persistence and degradability

|                               |                          |
|-------------------------------|--------------------------|
| Persistence and degradability | No information available |
|-------------------------------|--------------------------|

### | Bioaccumulative potential

|                           |                          |
|---------------------------|--------------------------|
| Bioaccumulative potential | No information available |
|---------------------------|--------------------------|

## Mobility in soil

| Component  | log Koc | Remark |
|------------|---------|--------|
| Profenofos | 3.14675 |        |

## 13 Disposal considerations

### Disposal considerations

|                          |                                                                                                                                                        |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste chemicals          | Before disposal should refer to the relevant national and local laws and regulation. Recommend the use of incineration disposal.                       |
| Contaminated packaging   | Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible. |
| Disposal recommendations | Refer to section waste chemicals and contaminated packaging.                                                                                           |

## 14 Transport information

### Label and Mark

|                    |                                                                                    |
|--------------------|------------------------------------------------------------------------------------|
| Transporting Label |  |
|--------------------|------------------------------------------------------------------------------------|

### IMDG-CODE

|                                   |                               |
|-----------------------------------|-------------------------------|
| UN number                         | 2810                          |
| UN proper shipping name           | TOXIC LIQUID, ORGANIC, N.O.S. |
| Transport hazard class            | 6.1                           |
| Transport subsidiary hazard class | None                          |
| Packing group                     | III                           |
| Marine pollutant ( Yes or no )    | No                            |

### IATA-DGR

|                                   |                               |
|-----------------------------------|-------------------------------|
| UN number                         | 2810                          |
| UN proper shipping name           | TOXIC LIQUID, ORGANIC, N.O.S. |
| Transport hazard class            | 6.1                           |
| Transport subsidiary hazard class | None                          |
| Packing group                     | III                           |

### UN-ADR

|                                   |                               |
|-----------------------------------|-------------------------------|
| UN number                         | 2810                          |
| UN proper shipping name           | TOXIC LIQUID, ORGANIC, N.O.S. |
| Transport hazard class            | 6.1                           |
| Transport subsidiary hazard class | None                          |
| Packing group                     | III                           |

## Transport in bulk according to IMO instruments

- ◆ Transport in bulk according to Annex II of MARPOL and the IBC code

|  |               |
|--|---------------|
|  | Not Available |
|--|---------------|

- ◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

|  |               |
|--|---------------|
|  | Not Available |
|--|---------------|

- ◆ Transport in bulk in accordance with the IGC Code

|  |               |
|--|---------------|
|  | Not Available |
|--|---------------|

## Others

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Precautions for transport</b> | Transit should be anti-exposure, rain, high temperature. Strictly prohibited shipping or transportation with acids, alkalis, oxidants, food and food additives etc. Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements. |
