Safety Data Sheet

Brown-yellow colorimetric solution BY5

Version: V2.0.0.1

Report No.: BWQ8496-2016-MSDS-US

Creation Date: 2025/10/13

Revision Date: -

*Prepared according to American OSHA HCS-2024 (29 CFR 1910.1200)

1 Identif	ication
-----------	---------

| Product identifier

·	
Product Name	Brown-yellow colorimetric solution BY5
Cat No.	BWQ8496-2016
CAS No.	Not applicable
EC No.	Not applicable
Molecular Formula	Not applicable

Recommended use of the product and restrictions on use

Relevant identified uses	Please consult manufacturer.
Uses advised against	Please consult manufacturer.

Details of the supplier of the Safety Data Sheet

Name of the company	Weiyel Inc
Address of the company	Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang
	City, Henan Province, China
Post code	465350
Telephone number	010-58103678
Fax number	010-84840368
E-mail address	info@weiyel.com

| Emergency phone number

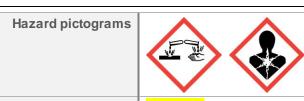

Emergency phone number	010-58103678

2 Hazard(s) identification

Hazard classification according to 29 CFR 1910.1200

Skin corrosion/irritation	Category 1C
Sensitization - skin	Category 1
Serious eye damage/irritation	Category 1
Sensitization - respiratory	Category 1
Carcinogenicity	Category 1B
Reproductive Toxicity	Category 1B
Specific target organ toxicity -	Category 1
single exposure	

| Label elements

Signal word

| Hazard statements

H314	Causes severe skin burns and eye damage
H317	May cause an allergic skin reaction
H318	Causes serious eye damage
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled
H350	May cause cancer (by inhalation)
H360	May damage fertility
H370	Causes damage to organs(whole body)

Version: V2.0.0.1 Revision Date: -

| Precautionary statements

Prevention	
P201	Obtain special instructions before use.
P202	Do not handle until all safety precautions have been read and understood.
P260	Do not breathe gas/mist/vapour/spray.
P264	Wash hands and other parts of the body (if related) thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P272	Contaminated work clothing should not be allowed out of the workplace.
P280	Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
P284	In case of inadequate ventilation wear respiratory protection.
◆ Response	
P321	Specific treatment (see related instructions on the label).
P363	Wash contaminated clothing before reuse.
D202 - D252	IE ON CIVIN. Work with plants of water

IF ON SKIN: Wash with plenty of water. P302+P352 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P304+P340 P362+P364 Take off contaminated clothing and wash it before reuse. P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse affected areas with water [or shower]. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Storage

P405 Store locked up.

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/ international regulations.

Other hazards

Not applicable.

| Hazard description

Physical and chemical hazards

-	
	No information available
Health hazards	
Inhaled	Inhalation of vapours may cause allergy or asthma symptoms or breathing difficulties if inhaled. Corrosive product can cause irritation of the respiratory tract, with coughing, choking and mucous membrane damage.
Ingestion	Accidental ingestion of the product may be harmful to the health of the individual.
Skin Contact	The product may cause an allergic skin reaction following direct contact with the skin. The product can cause severe skin burns following direct contact with the skin.
Еуе	The product can produce severe chemical burns to the eye following direct contact. If timely and appropriate treatment is not available may cause permanent blindness.
 Environmental hazards 	
	Please refer to 12th chapter of SDS.

Version: V2.0.0.1 Revision Date: -

3 Composition/information on ingredients

Substance/mixture

Mixture

Component	CAS No.	EC No.	Concentration (wt, %)
Iron trichloride	7705-08-0	231-729-4	1.08
Cobalt dichloride	7646-79-9	231-589-4	0.45
Copper sulphate	7758-98-7	231-847-6	0.18
Hydrogen chloride	7647-01-0	231-595-7	8.3
Water	7732-18-5	231-791-2	89.99

4 First-aid measures

Description of first aid measures

1 1	
General advice	Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.
Skin contact	Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.
Ingestion	Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
Inhalation	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.
Protecting of first-aiders	Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.

Most important symptoms/effects, acute and delayed

1 Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.

Version: V2.0.0.1 Revision Date: -

Indication of any immediate medical attention and special treatment needed

- 1 Treat symptomatically.
- 2 Symptoms may be delayed.

5 Fire-fighting measures

Extinguishing media

Suitable extinguishing media	Small fire: CO ₂ , dry chemical, dry sand, alcohol-resistant foam; Large fire: water spray, fog or alcohol-resistant foam; Fire involving tanks, rail tank cars or highway
	tanks: Fight fire from maximum distance or use unmanned master stream devices
	or monitor nozzles. Cool containers with flooding quantities of water until well
	after fire is out. Do not get water inside containers.
Unsuitable extinguishing media	Large fire: avoid aiming straight or solid streams directly onto the product.

Specific hazards arising from the substance or mixture

- 1 Fire may produce irritating, poisonous or corrosive gases.
- 2 Development of hazardous combustion gases or vapor possible in the event of fire.
- 3 May expansion or decompose explosively when heated or involved in fire.

Special protective equipment and precautions for fire-fighters

- As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear.
- 2 Fight fire from a safe distance, with adequate cover.
- 3 Prevent fire extinguishing water from contaminating surface water or the ground water system.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

- 1 Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire.
- 2 Do not touch or walk through spilled material.
- 3 Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
- 4 Use personal protective equipment, do not breathe gas/mist/vapour/spray.
- Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges.
- 6 Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.

Environmental precautions

- 1 Prevent further leakage or spillage if safe to do so.
- 2 Discharge into the environment must be avoided.

Methods and materials for containment and cleaning up

- 1 Do not touch or cross spills.
- 2 It is recommended that emergency personnel wear a self-contained breathing apparatus with positive pressure and wear anti-corrosion clothing.
- 3 Transfer to a tank truck or special collector with a corrosion-resistant pump.
- 4 Do not touch broken containers and spills before putting on appropriate protective clothing.

5	Cut off the source of the leak as much as possible.
6	Keep leaks in a ventilated place.
7	Absorb spilled material in dry sand or inert absorbent. In case of large amount of spillage, contain a spill by bunding.
8	Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.
9	Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container.

7 Handling and storage

| Precautions for safe handling

1	Handling is performed in a well ventilated place.
2	Wear suitable protective equipment.
3	Avoid contact with skin and eyes.
4	Keep away from heat/sparks/open flames/ hot surfaces.

Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed.
2	Keep containers in a dry, cool and well-ventilated place.
3	Keep away from heat/sparks/open flames/hot surfaces.
4	Store away from incompatible materials and foodstuff containers.

8 Exposure controls/personal protection

| Control parameters

◆Occupational exposure limit values

Component	Country/Region	ion Limit value - Eight hours		Limit value - Short term	
		ppm	mg/m³	ppm	mg/m³
Iron trichloride	USA - ACGIH	-	1(as Fe)	-	-
Cobalt dichloride	Japan - JSOH(2024–202 5)	-	0.05 (as Co)	-	-
	Finland	-	0.02	-	-
	Spain	-	0.02	-	-
	Sweden	-	0.02	-	-
Copper sulphate	Finland	-	0.02	-	-
Hydrogen chloride	Japan - JSOH(2024–202 5)	-	-	-	-
	Permissible exposure standards for workers in the workplace	-	-	-	-
	Australia	-	-	5	7.5
	Canada - Ontario	-	-	2	-
	European Union	5	8	10	15

USA - NIOSH	-	-	5	7

| Engineering controls

- 1 Ensure adequate ventilation, especially in confined areas.
- 2 Ensure that eyewash stations and safety showers are close to the workstation location.
- 3 Use explosion-proof electrical/ventilating/lighting/equipment.
- 4 Set up emergency exit and necessary risk-elimination area.

| Personal protection equipment

General requirement	
Eye protection	Must wear appropriate anti-corrosion goggles.
Hand protection	Must wear acid and alkali resistant chemical protective gloves.
Respiratory protection	Must wear appropriate personal respiratory protective equipment.
Skin and body protection	Must wear acid and alkali resistant chemical protective clothing.

9 Physical and chemical properties and safety characteristics

| Physical and chemical properties

Appearance (physical state,	Brownish-yellow liquid
color, etc.)	
Odor	No information available
Odor threshold	No information available
рН	1~2 (Iron trichloride)
Melting point/freezing point(°C)	37 (Iron trichloride)
Initial boiling point and boiling	315 (Iron trichloride)
range(°C)	
Flash point(Closed cup,°C)	No information available
Evaporation rate	No information available
Flammability	No information available
Upper/lower explosive limits[%(v/v)]	Upper limit: No information available; Lower limit: No information available
Vapor pressure	0.13kPa (194°C, Iron trichloride)
Vapor density(Air = 1)	No information available
Relative density(Water=1)	2.9 (Iron trichloride)
Solubility	920 g/L (20°C, Iron trichloride)
n-octanol/water partition	No information available
coefficient	
Auto-ignition temperature(°C)	No information available
Decomposition temperature(°C)	> 200 (Iron trichloride)
Kinematic viscosity	No information available

10 Stability and reactivity

| Stability and reactivity

B 41.14	
Reactivity	Contact with incompatible substances can cause decomposition or other
	chemical reactions.
Chemical stability	Stable under proper operation and storage conditions.
Possibility of hazardous	Mixtures with active metals are sensitive to mechanical vibration and may cause
reactions	a severe explosion. In contact with magnesium, sodium, potassium, copper and
	other metals or metal acetylense may cause a fire or explosion. In contact with
	active metals (alkali metals, Na, Ca etc.) causes a reaction and release hydrogen.
Conditions to avoid	Incompatible materials, heat, flame and spark.
Incompatible materials	Active metal, nitric acid ester, epoxy compounds, alkenes and nitro compounds.
	Magnesium, sodium, potassium, copper, oxidants, acetylene metal compounds,
	alcohols, alkanes, hydrogen and water. Alkali, sodium, calcium, and other active
	metal, halogen, metal oxide, nonmetal oxide, acyl halide and metal phosphide.
Hazardous decomposition	Under normal conditions of storage and use, hazardous decomposition products
products	should not be produced.

11 Toxicological information

Acute toxicity

Component	LD ₅₀ (oral)	LD ₅₀ (dermal)	LC ₅₀ (inhalation,4h)
Iron trichloride	450mg/kg(Rat)	No information available	No information available
Copper sulphate	300mg/kg(Rat)	No information available	No information available
Cobalt dichloride	766mg/kg(Rat)	> 2000mg/kg(Rat)	No information available
Hydrogen chloride	900mg/kg(Rabbit)	No information available	No information available

| Carcinogenicity

Component	List of carcinogens by the IARC Monographs	Report on Carcinogens by NTP	OSHA Carcinogen List
Iron trichloride	Not Listed	Not Listed	Not Listed
Cobalt dichloride	Category 2A(Remark 1)	Category R	Not Listed
Copper sulphate	Not Listed	Not Listed	Not Listed
Hydrogen chloride	Category 3	Not Listed	Not Listed
Water	Not Listed	Not Listed	Not Listed

Remark 1: Soluble cobalt(II) salts

Others

Brown-yellow colorimetric solution BY5				
Skin corrosion/irritation	Causes severe skin burns and eye damage(Category 1C)			
Serious eye damage/irritation	Causes serious eye damage(Category 1)			
Skin sensitization	May cause an allergic skin reaction(Category 1)			
Respiratory sensitization	May cause allergy or asthma symptoms or breathing difficulties if inhaled(Category 1)			
Reproductive toxicity	May damage fertility(Category 1B)			
STOT-single exposure	Causes damage to organs(whole body)(Category 1)			
STOT-repeated exposure	Based on available data, the classification criteria are not met			
Aspiration hazard	Based on available data, the classification criteria are not met			

Germ cell mutagenicity

Based on available data, the classification criteria are not met

Version: V2.0.0.1 Revision Date: -

12 Ecological information

Acute aquatic toxicity

Component	Fish	Crustaceans	Algae or other aquatic
			plants
Iron trichloride	LC ₅₀ : 21mg/L (96h)(Fish)	No information available	No information available
Copper sulphate	LC ₅₀ : 0.31mg/L	EC ₅₀ : 0.06mg/L	ErC ₅₀ : 0.05mg/L
	(96h)(Fish)	(48h)(Crustaceans)	(96h)(Algae)
Cobalt dichloride	LC ₅₀ : 1.5mg/L (96h)(Fish)	EC ₅₀ : 1.49mg/L	ErC ₅₀ : 9.02mg/L
		(48h)(Crustaceans)	(96h)(Algae)
Hydrogen chloride	LC ₅₀ : 20.5mg/L	No information available	No information available
	(96h)(Fish)		

| Chronic aquatic toxicity

Chronic aquatic toxicity

No information available

| Persistence and degradability

Component	Persistence (water/soil)	Persistence (air)
Cobalt dichloride	High	High

| Bioaccumulative potential

Component	Bioaccumulative potential	Comments
Cobalt dichloride	Low	Log Kow=0.85

| Mobility in soil

Component	log Koc	Remark
Cobalt dichloride	1.375	

13 Disposal considerations

Disposal considerations

Waste chemicals	Before disposal should refer to the relevant national and local laws and
	regulation. Recommend the use of incineration disposal.
Contaminated packaging	Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible.
	and ignition source of life. Return to supplier for recycling it possible.
Disposal recommendations	Refer to section waste chemicals and contaminated packaging.

14 Transport information

Label and Mark

Transporting Label

IMDG-CODE

UN number	1789
UN proper shipping name	HYDROCHLORIC ACID
Transport hazard class	8
Transport subsidiary hazard	None
class	
Packing group	ш
Marine pollutant (Yes or no)	No

Version: V2.0.0.1 Revision Date: -

IATA-DGR

UN number	1789
UN proper shipping name	HYDROCHLORIC ACID
Transport hazard class	8
Transport subsidiary hazard	None
class	
Packing group	ш

UN-ADR

UN number	1789
UN proper shipping name	HYDROCHLORIC ACID
Transport hazard class	8
Transport subsidiary hazard	None
class	
Packing group	ш

Transport in bulk according to IMO instruments

◆ Transport in bulk according to Annex II of MARPOL and the IBC code

Not Available

◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

Not Available

◆ Transport in bulk in accordance with the IGC Code

Not Available

Others

Precautions for transport

Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements.

Disclaimer

This Safety Data Sheet (SDS) was prepared according to OSHA HCS-2024. The data included was derived from international authoritative database and provided by the enterprise. Other information was based on the present state of our knowledge. We try to ensure the correctness of all information. However, due to the diversity of information sources and the limitations of our knowledge, this document is only for user's reference. Users should make their independent judgment of suitability of this information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
