# **Safety Data Sheet**

# Sulfide quality control in soil

Version: V2.0.0.1

Report No.: BWS0020-2016-MSDS-US

Creation Date: 2025/10/27

Revision Date: -

#### \*Prepared according to American OSHA HCS-2024 (29 CFR 1910.1200)

1	Identification
	Tuerillicalion

### | Product identifier

Product Name	Sulfide quality control in soil
Cat No.	BWS0020-2016
CAS No.	Not applicable
EC No.	Not applicable
Molecular Formula	Not applicable

### Recommended use of the product and restrictions on use

Relevant identified uses	Please consult manufacturer.
Uses advised against	Please consult manufacturer.

### Details of the supplier of the Safety Data Sheet

Name of the company	Weiyel Inc
Address of the company	Hedian Light Industrial Park, Chengguan Town, Shangcheng County, Xinyang City, Henan Province, China
Post code	465350
Telephone number	010-58103678
Fax number	010-84840368
E-mail address	info@weiyel.com

### | Emergency phone number

Emergency phone number	010-59103679
Emergency phone number	U IU-36 IU36 / 6

Hazard(s) identification

# Hazard classification according to 29 CFR 1910.1200

Skin corrosion/irritation	Category 1C
Serious eye damage/irritation	Category 1

Label elements	
Hazard pictograms	
Signal word	<b>Danger</b>

#### | Hazard statements

version : v2.0.0.1 Revision Date : -
Causes severe skin burns and eye damage
Causes serious eye damage
Do not broothe duct/frime
Do not breathe dust/fume.
Wash hands and other parts of the body (if related) thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
Specific treatment (see related instructions on the label).
Wash contaminated clothing before reuse.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse
affected areas with water [or shower].
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
lenses, if present and easy to do. Continue rinsing.
Store locked up.
Dispose of contents/container in accordance with local/regional/national/international regulations.
Not applicable.
140t applicable.
ards
No information available
Corrosive product can cause irritation of the respiratory tract, with coughing, choking and mucous membrane damage.
Accidental ingestion of the product may be harmful to the health of the individual.
The product can cause severe skin burns following direct contact with the skin.
The product can produce severe chemical burns to the eye following direct
contact. If timely and appropriate treatment is not available may cause permaner blindness.
•
Please refer to 12th chapter of SDS.

# First-aid measures

### Description of first aid measures

<u>'</u>	
General advice	Immediate medical attention is required. Show this safety data sheet (SDS) to the doctor in attendance.
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if feel uncomfortable.
Skin contact	Take off contaminated clothing and shoes immediately. Wash off with plenty of soap and water for at least 15 minutes and consult a physician if feel uncomfortable.
Ingestion	Never give anything by mouth to an unconscious person. Call a physician or Poison Control Center immediately.
Inhalation	Move victim into fresh air. If breathing is difficult, give oxygen. Do not use mouth to mouth resuscitation if victim ingested or inhaled the substance. If not breathing, give artificial respiration and consult a physician immediately.
Protecting of first-aiders	Ensure that medical personnel are aware of the substance involved. Take precautions to protect themselves and prevent spread of contamination.

## Most important symptoms/effects, acute and delayed

Substance accumulation, in the human body, may occur and may cause some concern following repeated or long-term occupational exposure.

### Indication of any immediate medical attention and special treatment needed

- 1 Treat symptomatically.
- 2 Symptoms may be delayed.

# Fire-fighting measures

#### | Extinguishing media

Suitable extinguishing media	Use extinguishing media suitable for surrounding area.
Unsuitable extinguishing media	There is no restriction on the type of extinguisher which may be used.

#### Specific hazards arising from the substance or mixture

Development of hazardous combustion gases or vapor possible in the event of fire.
 May expansion or decompose explosively when heated or involved in fire.

#### Special protective equipment and precautions for fire-fighters

- As in any fire, wear self-contained breathing apparatus (MSHA/NIOSH approved or equivalent) and full protective gear.

  Fight fire from a safe distance, with adequate cover.

  Prevent fire extinguishing water from contaminating surface water or the ground water system.
- 6 Accidental release measures

### Personal precautions, protective equipment and emergency procedures

1 Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static

Sulfi	ide quality control in soil Version: V2.0.0.1 Revision Date: -	
	discharges.	
2	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak.	
3	Use personal protective equipment,do not breathe dust/fume.	
l En	vironmental precautions	
1	Prevent further leakage or spillage if safe to do so.	
2	Discharge into the environment must be avoided.	
l Me	thods and materials for containment and cleaning up	
1	Cut off the source of the leak as much as possible.	
2	Keep leaks in a ventilated place.	
3	Isolation of contaminated areas and restrictions on access.	
4	It is recommended that emergency personnel wear dust masks.	
5	Collect the spill with a clean shovel and place it in a clean, dry, loosely closed container and move the container away from the leak.	
6	Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.	
2 3 4	Handling is performed in a well ventilated place.  Wear suitable protective equipment.  Avoid contact with skin and eyes.  Keep away from heat/sparks/open flames/ hot surfaces.	
Со	nditions for safe storage, including any incompatibilities	
1	Keep containers tightly closed.	
2	Keep containers in a dry, cool and well-ventilated place.	
3	Keep away from heat/sparks/open flames/hot surfaces.	
4	Store away from incompatible materials and foodstuff containers.	
8	Exposure controls/personal protection	
Co	ntrol parameters	
•	Occupational exposure limit values	
C	Occupational Exposure limit values No relevant regulations	
En	gineering controls	
1	Ensure adequate ventilation, especially in confined areas.	
2	Ensure that eyewash stations and safety showers are close to the workstation location.	

# | Personal protection equipment

Use explosion-proof electrical/ventilating/lighting/equipment.

Set up emergency exit and necessary risk-elimination area.

3

4

General requirement				
Eye protection	Must wear appropriate anti-corrosion goggles.			
Hand protection	Must wear acid and alkali resistant chemical protective gloves.			
Respiratory protection	flust wear appropriate personal respiratory protective equipment.			
Skin and body protection	Must wear acid and alkali resistant chemical protective clothing.			

# Physical and chemical properties and safety characteristics

Not applicable

#### | Physical and chemical properties Appearance (physical state, Grayish brown color, etc.) Odor No information available Odor threshold No information available рН >=11.5 (Strong base) (Disodium sulphide) Melting point/freezing point(°C) 920~950 (Decompose, Disodium sulphide) Initial boiling point and boiling No information available range(°C) Flash point(Closed cup, °C) Not applicable **Evaporation rate** Not applicable **Flammability** No information available Upper limit: No information available; Lower limit: No information available Upper/lower explosive limits[%(v/v)] Vapor pressure Not applicable Vapor density(Air = 1) Not applicable Relative density(Water=1) 1.86 (Disodium sulphide) Solubility 188g/L (20°C, Disodium sulphide) n-octanol/water partition -3.5 (Disodium sulphide) coefficient Auto-ignition temperature(°C) > 480 (Disodium sulphide) Decomposition temperature(°C) 920~950 (Disodium sulphide)

# 10 Stability and reactivity

Kinematic viscosity

# Stability and reactivity

Reactivity	Contact with incompatible substances can cause decomposition or other chemical reactions.
Chemical stability	Stable under proper operation and storage conditions.
Possibility of hazardous reactions	No information available.
Conditions to avoid	Incompatible materials, heat, flame and spark.
Incompatible materials	Nitrate and nitrite, halogens oxyacid salts, potassium permanganate, persulfate, halogen and strong oxidants.
Hazardous decomposition	Under normal conditions of storage and use, hazardous decomposition products
products	should not be produced.

# 11 Toxicological information

# | Acute toxicity

Component	LD <sub>50</sub> (oral)	LD <sub>50</sub> (dermal)	LC <sub>50</sub> (inhalation,4h)
Disodium sulphide	208mg/kg(Rat)	No information available	No information available

Version: V2.0.0.1 Revision Date: -

# | Carcinogenicity

Component	List of carcinogens by the IARC Monographs	Report on Carcinogens by NTP	OSHA Carcinogen List
Soil	Not Listed	Not Listed	Not Listed
Disodium sulphide	Not Listed	Not Listed	Not Listed

### Others

Sulfide quality control in soil				
Skin corrosion/irritation	Causes severe skin burns and eye damage(Category 1C)			
Serious eye damage/irritation	Causes serious eye damage(Category 1)			
Skin sensitization	Based on available data, the classification criteria are not met			
Respiratory sensitization	Based on available data, the classification criteria are not met			
Reproductive toxicity	Based on available data, the classification criteria are not met			
STOT-single exposure	Based on available data, the classification criteria are not met			
STOT-repeated exposure	Based on available data, the classification criteria are not met			
Aspiration hazard	Based on available data, the classification criteria are not met			
Germ cell mutagenicity	Based on available data, the classification criteria are not met			

# 12 Ecological information

# Acute aquatic toxicity

Component	Fish	Crustaceans	Algae or other aquatic
			plants
Disodium sulphide	LC <sub>50</sub> : 0.003mg/L	No information available	ErC <sub>50</sub> : 75mg/L
	(96h)(Fish)		(96h)(Algae)

# | Chronic aquatic toxicity

Chronic aquatic toxicity
--------------------------

# | Persistence and degradability

Component	Persistence (water/soil)	Persistence (air)
Disodium sulphide	High	High

# | Bioaccumulative potential

Component	Bioaccumulative potential	Comments			
Disodium sulphide	Low	BCF=10.9			

# | Mobility in soil

Component	log Koc	Remark
Disodium sulphide	1.155	

# 13 Disposal considerations

### Disposal considerations

Waste chemicals	Before disposal should refer to the relevant national and local laws and
	regulation. Recommend the use of incineration disposal.
Contaminated packaging	Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible.
Disposal recommendations	Refer to section waste chemicals and contaminated packaging.

# 14 Transport information

#### Label and Mark

Transporting Label | Not applicable

#### IMDG-CODE

IMDG-CODE NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

#### IATA-DGR

IATA-DGR NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

#### UN-ADR

UN-ADR NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS

### Transport in bulk according to IMO instruments

◆ Transport in bulk according to Annex II of MARPOL and the IBC code

Not Available

◆ Transport in bulk in accordance with MARPOL Annex V and the IMSBC Code

Not Available

Transport in bulk in accordance with the IGC Code

Not Available

#### **Others**

**Precautions for transport** 

Transport vehicles should be equipped with the appropriate variety and quantity of fire equipment and emergency equipment leakage during transport. Before transport, should be preceded by checking whether container integrity, sealing. The transport unit must be placarded and marked in accordance with relevant transporting requirements.
